

**REMARKS**

Claims 88-104 and 122-135 have been allowed. Claims 1-87, 105-121, and 136-138 have been canceled without prejudice to subsequent revival, including in a continuation or divisional application. Claims 133-135 are amended herein; these amendments are fully supported by the application as filed and introduce no new matter.

Allowed claims 133-135 were previously amended by the Examiner pursuant to an Examiner's Amendment, which was included with the Notice of Allowance dated June 2, 2008. Applicants' representative, Margaret A. Powers, who approved the Examiner's amendments to claims 133-135 during a telephone interview on May 13, 2008, understood that each of claims 133-135 would be amended to include the phrase "disorder characterized by an *undesired* cell proliferation". Unfortunately, in the Examiner's Amendment, the Examiner inadvertently amended claims 133-135 to include a space between "un" and "desired" in the added word "undesired". Accordingly, Applicants have amended each of claims 133-135 to correct this inadvertent typographical error entered by the Examiner's Amendment. Specifically, each of claims 133-135 has been amended to substitute the correctly spelled word "undesired" (with no space) for the incorrect term. Support for this amendment is provided throughout the specification, including at, but not limited to, e.g., page 82, lines 15-17.

Applicants believe that no claim fees are due for these claim amendments. However, in the event that a fee is due in connection with this submission, the Commissioner is authorized to deduct such fee and any additional fees required for this application, from the undersigned's Deposit Account No. 50-0990. Please also credit any overpayment to Deposit Account No. 50-0990.

Respectfully submitted,

  
Margaret A. Powers
